Site

The Sycamore tree T1, as seen in the photograph and marked on the plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Front Garden

Sycamore T1(16M high, 500mm dia.) - Reduce the crown of the tree back to the most recent points of reduction (up to 3 metres).

Issues

I hold no objections to the reasonable repeat pruning works.

The specification is within good arboricultural practice and husbandry.

Sycamore trees generally respond well to such reductions.

Recommendation

No Objection
