

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2023/2718
Application type	Conservation Area Notification
Site Address:	50 North Hill, Hornsey, London, N6 4BS
Proposal	Tree 1- I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree Tree 2 - I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree Tree 3-I would recommend to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree Tree 4 - I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree.

RECOMMENDATION:	No Objection	
Application date	10/10/2023	
Tree Inspector	DM	Date: 26 th October 2023

Site

The Lime trees T1- T4, as marked on the plan and seen from street view, are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Tree 1- I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree

Tree 2 - I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree Tree 3-I would recommend to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree

Tree 4 - I would recommend to remove the Ivy and to pollard back to previous tree surgery points by 3 meters, to lightly thin out by 10% and deadwood the Lime tree.

Issues

I hold objections to the reasonable repeat sensitive pruning works to prune back to the most recent pruning points.

The specification is within good arboricultural practice and husbandry.

Lime trees generally respond well to such management reduction regimes.

Recommendation

No Objection
