Application type	Conservation Area Notification
Site Address:	66 Priory Gardens, Hornsey, London, N6 5QS
Proposal	T1) Ash tree in neighbouring property (64 Priory Gardens: Reduce lateral growth over 66 Priory Gardens by up to 3 metres to provide more light and space in the garden area; remove any dead and defective branchwood from tree.

RECOMMENDATION:	No Objection	
Application date	29/09/2023	
Tree Inspector	DM	Date: 26 th October 2023

Site

The mature Ash tree T1, as seen in the photographs, and the site plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1) Ash tree in neighbouring property (64 Priory Gardens: Reduce lateral growth over 66 Priory Gardens by up to 3 metres to provide more light and space in the garden area; remove any dead and defective branchwood from tree.

Issues

I hold no objections to the reasonable sensitive proposed pruning works.

The ash tree has:

- A tight convex co-dominant fork
- From the photographs a sparse and possibly chlorotic crown
- The crown is already unbalanced with phototropism causing a lower branch to be over extended and subsiding

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
