Site

The various trees, as listed above, marked on the plan, and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Hornbeam Hedge (G1): Reduce 1m below previous points (2-3m)

Sycamore (T1): Reduce to previous, most recent pruning points (2-3m)

Ash (T2): Fell

Greengage (T3): Reduce to previous, most recent pruning points (1-2m)

Plum (T4): Reduce to previous, most recent pruning points (1-2m).

Issues

I hold no objections to the repeat reasonable proposed works.

The specification is within good arboricultural practice and husbandry.

The felling of the Ash tree is a low grade tree within a group and is at the exclusion stage within that group.

Recommendation

No Objection
