Tree Inspector	DM	Date: 26 th October 2023

Site

The x 3 Leylandii trees, as marked on the sketch plan and seen in the photographs, are situated in the front garden of the property. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a TPO.

3 x Large Leylandii Cypresses - Reduce the height of all 3 trees by 3-4m

Reduce the crown spread all round to balance and shape
(approx. 1.5-2m)

To reduce the wind loading on the canopies. The boundary wall is already damaged by the expansion of the trunk and roots. Maintenance works in line with good Arboricultural practice.

Issues

I hold no objections to the reasonable proposed works.

A Tree Preservation Order was made recently for these trees after receiving a Sec.211 Notice to fell them (see HGY/2023/1310).

The specification is within standard practice. The pruning works will allow for the trees to be maintained and managed easier as a large hedge, curtail growth, and still allow for the benefits provided by this group of trees.

Recommendation

No Objection
