Subject: objection to Hilldene court telephone mast - HGY/2023/2438

Dear Mr. Bossman-Gyamera,

Just to let you know that I have posted the objection below and would like to be formally recorded in case the online method was not successful.

I would like to object to the proposal.

- 1) The location is totally unsuitable. As suggested by others there's alternative locations, and I could add the Creighton Avenue Allotments at the back of Barrington Court, or the Shell building at the junction with Alexandra Park Road and Pages Lane. The installation would be overbearing and out of character in the conservation area, visible from far, and we cannot rely on existing trees to shield some of the view, a) because there will be full visibility during the winter and b) trees are often fell in Haringey. We should preserve the existing character and the Council and telecom operator should abide by the same rules we ask residents to respect. For their own admission in SECTION 3.6 SUPPLEMENTARY INFORMATION the operator acknowledges 'the visual impact that may be caused by the installation of the scheme.'*
- 2) On the same document it is stated in section 2 (Pre-checks) that was no local planning authority mast register available to check for suitable sites by the operator or the local planning authority. This is highly concerning, especially considering that the planning authority benefitting financially from the installation will be the one deciding on the planning application.*
- 3) The application state the level of radiation is within safe limits. What about the compound level of radiation? There's other telecom mast on top of Alexandra Park School, so effectively Alexandra Park Road, the Lake Roads and Muswell Avenue will be under the emission area of two different towers. I have not seen any assessment of level of radiations that takes this into account*
- 4) Hilldene Court is a Haringey Council sheltered accommodations with vulnerable residents, where access is limited by design and nature of the establishment. Why there is no mention of this? Have the residents families been informed? The installation and management of the equipment will be too disruptive to the residents, yet there is no mention and no mitigation.*
- 5) For full disclosure I am the former Councillor in the area when was part of the Alexandra Ward, current Alexandra Park Councillor (this now starts from 38 and 55 Alexandra Park Road) and local resident*

This has happened in the past so I am now taking precautions,

Kind Regards,
Alessandra Rossetti
