Site

The Lime *Tilia* spp. tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO).

Proposal

Tree works proposed.

Lime tree (T1) at rear of garden of 2 Clarence Court - crown reduction of a tree under a TPO to approx half height to reduce the risk of failure of hollow basal stem and remove dead/dying branches.

Works are following advice from Arboricultural Consultant in 2023. That report is attached to this planning application.

Issues

I hold no objections to the proposed pruning works as stated above.

I concur with the tree survey report by SJ Stephens Associates dated 13 March 2023.

It is evident from the photographs that there is decay within the stem clamp, brown rot, mycelium activity, coalescing occurring and good callusing ribs to counter the decay and strengthen the stem.

The further reduction, monitoring, and continuous management regimes will allow less external forces within the crown area.

Recommendation

No Objection
