Site

The Sycamore tree, as seen in the photograph and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Sycamore - Reduce height of tree by 4m and reduce spread to balance (approx. 2m)

Maintenance works in line with good Arboricultural practice.

Issues

I hold no objections to the proposed works.

The Sycamore tree is low grade and not worthy of a Tree Preservation Order.

The reduction will bring the tree into line with the surrounding vegetation.

Recommendation

No Objection
