Site

The Norway Maple tree T1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bounds Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Norway maple (T1) - reduce crown back to previous cuts (approx 2m reduction). To let more light into the garden and restrict root growth.

Issues

I hold no objections to the reasonable repeat proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Norway Maples generally respond well to such reduction works.

Recommendation

No Objection
