

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/0168
Application type	Conservation Area Notification
Site Address:	22 Southwood Lane, Hornsey, London, N6 5EE
Proposal	Oak + Maple - Crown reduce the height and spread back to the most historical pruning points (approx. 1.8m height and 1.5m spread) Crown thin/remove smaller branches in the inner canopy Reduce the extremities of branches growing towards the lamppost to give a clearance of 1.0m respectively Remove dead wood 2 x Lime - Crown reduce the height and spread back to the previous pollard points (approx. 2m height and 1.5m spread) leave growth growing laterally along boundary fence to act as screening up to a height of 4.0m-4.5m Remove basal growth Maintenance works in line with good arboricultural practice

RECOMMENDATION:	No Objection	
Application date	20/01/2026	
Tree Inspector	DM	Date: 9 th February 2026

Site

The various trees as marked on the plan are situated in the front and side garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Oak + Maple - Crown reduce the height and spread back to the most historical pruning points (approx. 1.8m height and 1.5m spread)

Crown thin/remove smaller branches in the inner canopy

Reduce the extremities of branches growing towards the lamppost to give a clearance of 1.0m respectively

Remove dead wood

2 x Lime - Crown reduce the height and spread back to the previous pollard points (approx. 2m height and 1.5m spread) leave growth growing laterally along

boundary fence to act as screening up to a height of 4.0m-4.5m

Remove basal growth

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the repeat reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
