| Tree Inspector   | DM           | Date: 10 <sup>th</sup> February 2026 |

## **Site**

The mature Willow tree T1, as marked on the sketch plan, and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

T1 - weeping willow tree (8m) - reduce height to approximately 4m from ground level to reduce weight on leaning main stem.

All tree debris to be removed.

Price includes making application to local authority for planning permission

## **Issues**

I hold no objections to the proposed reduction of the Willow tree.

The tree is leaning towards the north due to being suppressed by surrounding trees.

The reduction will reduce the weight and sail of the crown.

Willows generally responds well to reductions.

## **Recommendation**

**No Objection**
