Application date	19/01/2026	
Tree Inspector	DM	Date: 11 th February 2026

Site

The conifer tree T2, as marked on the plan and seen in the photograph, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T2 Conifer sited front of property, it's too big for the flowerbed / area, and is causing pressure on paths and walls, Tree should be removed as any other works will leave the tree unsightly

Issues

I hold no objections to the removal of the conifer causing direct damage.

The tree is low grade and not worthy of further protection.

The applicant has landscaped the rear garden planting two trees and intends to re plant with a more suitable species at the front.

Recommendation

No Objection
