| RECOMMENDATION:  | No Objection |                                   |
| Application date | 10/02/2026   |                                   |
| Tree Inspector   | DM           | Date: 05 <sup>th</sup> March 2026 |

## **Site**

The mature Sycamore tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

Rear garden:

Sycamore T1 (12M high, 2 x 350 dia.) - Reduce the crown of the tree by up to 4 metres and back to the most recent points of reduction. Remove stem epicormic growth

## **Issues**

I hold no objections to the repeat reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

## **Recommendation**

**No Objection**
