Site

The various trees and shrubs, as listed above, marked on the plan, and seen in the photographs, are situated mainly in the rear garden and front of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1-Remove to ground level all shrubs in back flower bed including Judas tree on left. Portuguese Laurel in right hand corner to remain.

G-2-Prune overhang on left back to boundary.

T1-Holm Oak tree - reduce crown by approximately 1.5m and lift to 2m from ground level.

T2-Plum tree-light prune of up to 1m.

T3-Bamboo on left - remove.

T4-Create an Espalier with the Pyrocanthus.

T5- Fusia tree- cut to ground level

Issues

I hold no objections to the proposed works.

The removals are low grade vegetation that does not worthy of any further protection.

The remaining pruning is within standard good arboriculture and husbandry.

Recommendation

No Objection
