Site

The mature pollard Ash tree, as seen in the photograph, and marked on the sketch plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to tree protected by a TPO.

Ash trunk - Crown reduce the height and spread back to the previous reduction points (approx. 4m height and 2m spread). Remove trunk and basal growth. Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the reasonable repeat re pollarding of the Ash tree.

The specification is within standard arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
