Proposal	T1 - oak tree (15m) - reduce crown by approximately 3m and remove epicormic shoots from main stem All tree debris to be removed

RECOMMENDATION:	No Objection	
Application date	29/01/2026	
Tree Inspector	DM	Date: 9 th March 2026

Site

The mature Oak tree, as marked on the sketch plan, and seen in the photographs (see below too) is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

T1 - oak tree (15m) - reduce crown by approximately 3m and remove epicormic shoots from main stem

All tree debris to be removed

Issues

I hold no objections to the reasonable, sensitive proposed pruning works.

The Oak tree has been reduced before and this reduction will be back to the last pruning points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
