Site

The mature Yew tree, as seen on street view, and marked on the plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by the Crouch End Conservation Area.

Proposal

Tree works proposed.

Yew - Crown lift low canopy over the pavement by 1.0m (inline with existing canopy)

Crown reduce the height and spread by 0.8m to create an even flowing canopy

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the sensitive, reasonable proposed pruning tree works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
