Site

The mature high pollard Plane and Lime trees, as marked on the sketch plan, and seen in the photograph, are situated in the rear garden on the back boundary of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are not protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

T2-Plane tree- crown reduction back to most recent pruning points (approximately 2.5m reduction).

T1- Lime tree- crown reduction back to most recent pruning points (up to 5m reduction

Issues

I hold no objections to the proposed reasonable repeat re pollarding back the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

Both species generally respond well to such reductions and management regimes.

Recommendation

No Objection
