Re: Installer Confirmation – Solar PV Installation

Development: X026 St Ann's, Phase 1A

Dear James,

Further to the completion of the solar photovoltaic (PV) installation at the above development, this letter serves as formal confirmation from the installer that the system has been installed and commissioned correctly.

Envirolec Smart Energy Solutions (London) Limited confirms that the solar PV system installed at **X026 St Ann's, Phase 1A** has been completed in accordance with the relevant design specifications, manufacturer guidelines, and current industry standards. The system has been fully installed, tested, and commissioned by our qualified engineers.

- All commissioning checks have been carried out and the system has been verified to be operating safely and correctly. The installation complies with applicable electrical regulations and Microgeneration Certification Scheme (MCS) requirements.

This letter is provided to support the planning condition requirement for installer confirmation that the system has been installed and commissioned appropriately.

Should you require any further information, please do not hesitate to contact us.

Yours faithfully,

Envirolec Smart Energy Solutions (London)

Jonny Springall
New Business Director
