

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/0145
Application type	Conservation Area Notification
Site Address:	60 Avenue Road, Hornsey, London, N6 5DR
Proposal	(T1) Ash - This tree is situated in the rear garden of number 60. Tree is likely a self-seeder. It has a fairly tight union at approximately 2.5m with slight included bark. Proposing to reduce crown, height and lateral spread by 2m to prevent the failure of codominant stem, excessive shading to garden and neighbouring gardens and manage size and shape of tree in order to preserve tree in location for as long as possible

RECOMMENDATION:	No Objection	
Application date	19/01/2026	
Tree Inspector	DM	Date: 11 th March 2026

Site

The young semi mature, self-set Ash tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

(T1) Ash - This tree is situated in the rear garden of number 60. Tree is likely a self-seeder. It has a fairly tight union at approximately 2.5m with slight included bark. Proposing to reduce crown, height and lateral spread by 2m to prevent the failure of codominant stem, excessive shading to garden and neighbouring gardens and manage size and shape of tree in order to preserve tree in location for as long as possible

Issues

I hold no objections to the removal of the self-set Ash tree that will become too dominating for the rear garden.

There is an adequate back drop, screen and corridor of Ash trees along the private playing field.

The removal of the Ash tree will allow the opportunity to replace with a more suitable tree species.

Recommendation

No Objection
