Site

The Yew, and Holly trees T1 & T2, as marked on the sketch plan, and seen in the photographs, are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Yew (6m): Reduce height by 1.5-2m and sides by up to 1m to keep tree at a size suitable for its location and as part of regular maintenance

T2: Holly (10m): Reduce height by 2m and shape to keep tree at a size suitable for its location and as part of regular maintenance

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
