Site

The young early mature Lime tree T1, as marked on the plan and seen in the photograph, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Lime (T1): Reduce to previous points (approx. 1-2m)

Issues

I hold no objections to the repeat reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reduction works and management regimes.

Recommendation

No Objection
