Site

The Maple tree (Box Elder) T1, as seen in the photographs and marked on the plan, is situated in the front garden of the property. It is publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (10/02/2026 at approximately 12:25pm).

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Maple tree - crown reduce back to the most recent previous points (amended description)

Issues

I hold no objections to the amended application and the reasonable proposed pruning repeat works.

The specification is with standard good arboricultural practice and husbandry.

The species generally responds well to such reductions.

This tree is implicated in an indirect damage case. The applicant is currently collating the required information to investigate further.

Recommendation

No Objection
