DATE: Jan 28, 2026

Description	Quantity	Unit price	Amount
HOLM OAK	1	£1.00	£1.00
Rear Garden			
Regarding the health of the Holm oak we would strongly advise of the removal of the tree, due to the fungus and decay of the main trunk.			
The Holm oak is failing due to Shaggy Bracket (inonotus hispidus) many branches have failed in the past and with the tree being 18-20meters tall and the terrace property only being 12meters away we would recommend complete removal. The Holm has been heavily pollarded within recent years and dose create new growth but the main trunks carry on to fail.			
The customer of 33 Highfield Pk has payed to have a tree report in the past and it was suggested if the fungus carries on to spread that removal would be the only option.			
SUBTOTAL:			£1.00
TOTAL:			£1.00
PAID:			£0.00
BALANCE DUE			£1.00
