Site

The Cypress tree T1, as marked on the plan, and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

(T1) Cypress - tree is located against the boundary to adjacent property and has been reduced in height multiple times and is now very wide spread, extending over neighbouring gardens with no ability to reduce enough to get the tree within the garden boundary. It is casting excessive shade to neighbouring properties. Proposing to remove the tree in order to allow planting of more appropriate species

Issues

I hold no objections for the removal of the Cypress tree and for the reason given.

The tree has low amenity value and is not worthy of further protection.

The planting of a more suitable species is an adequate solution.

Recommendation

No Objection
