Site

The mature Lime tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to tree protected by a TPO.

Tree location - rear garden, access - side access.

T1 - Lime, approx. H16 S11 70+DBH. Remove all regrowth formed since last works (approx. 2-3m) back to most recent, old pruning points to leave a bare framework as per previous practice

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
