Site

The mature tree T1, as marked on the plan, and seen in the photograph, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

T1 - lime tree (16m) - reduce crown by approximately 3m, remove epicormic shoots from main stems and limbs, reduce branches away from streetlight by at least 1m and sever and shave ivy back to main stem

Issues

I hold no objections to the proposed repeat reasonable pruning to prune back to the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
