Hi Daniel,

Thank you for forwarding the photographs.

From the photos and the street view image, there appears to be a large Lime tree in the adjacent garden of 82 (protected by the Hillfield Conservation Area).

We will require if the outbuilding is within or outside the root protection area of this tree, and if there is an impact what mitigating measures are to be taken.

The remaining vegetation within the vicinity is low grade.

Regards,

Daniel Monk

Hi Daniel,

Regarding the above planning proposal, would they have more photographs showing the rear garden?
From aerial imagery there appears to be trees and a lot of vegetation.

We would have concerns regarding the outbuilding and any root protection areas for significant trees.

Regards,

Daniel Monk
