Site

The various trees, as listed above, marked on the sketch plan, and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1- Ivy and Cypress on left- prune back to boundary starting from mid section of garden steps.

T1-Pear tree- crown reduction back to previous pruning points. Remove bulk of Rose leaving main tendrils on tree.

T2- Eucalyptus tree- reduce back to bend in trunk

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well from such reductions and pruning management regimes.

Recommendation

No Objection
