Site Address:	45 Ferme Park Road, Hornsey, London, N4 4EB
Proposal	G1 Plum - Fell by way of controlled dismantle down to ground level or as close to grade as possible T1 Pear - Crown reduction by removing approximately (30%) 4.0 metres growth in height and reshaping spread pruning back to suitable growth points to leave a balanced crown. T2 Sycamore - Crown reduction by removing approximately (30%) 5.0 metres growth in height and reshaping spread pruning back to suitable growth points to leave a balanced crown. (Tree previously Pollarded)

RECOMMENDATION:	No Objection	
Application date	13/03/2026	
Tree Inspector	DM	Date: 30 th March 2026

Site

The trees are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1 Plum - Fell by way of controlled dismantle down to ground level or as close to grade as possible

T1 Pear - Crown reduction by removing approximately (30%) 4.0 metres growth in height and reshaping spread pruning back

to suitable growth points to leave a balanced crown.

T2 Sycamore - Crown reduction by removing approximately (30%) 5.0 metres growth in height and reshaping spread pruning back

to suitable growth points to leave a balanced crown. (Tree previously Pollarded)

Issues

I hold no objections to the reasonable proposed pruning works.

The removal of G1 is a low grade Plum Cherry not worthy of further protection.

T1 & T2 are past reductions.

Recommendation

No Objection
