Site

The various trees, as listed above, marked on the sketch plan, and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Bay tree on right - (8m) Reduce height by approximately fifty percent , prune in all sides over approximately 1m.

T2- Neighbors Pear tree on right- prune back overhanging branches by up to 1.5m and prune back Ivy.

T3-- Amelanchier tree- (5m)- light reduction.

T4-Bay tree on left - (8m)- Reduce height by approximately 1.5 metres, prune in all sides by up to 1m

T5- Ash tree- (15m)- Crown reduction back to previous pruning points, (approximately 1m reduction) reduce height of Ivy to 1m above fence

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Regarding T2 Pear, if the applicant is practicing their common law right then it is prudent and courteous to inform the adjacent neighbour.

Recommendation

No Objection
