Site

The shrubs, as highlighted by the reports, and seen in the photographs, are situated in the front garden of the property. They are indiscernibly publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

SG1 Privet, Holly, Laurel, Dog rose, Choisya (height: 1.9m, distance to damage: 3m)
Remove close to ground level and treat stumps with herbicide to inhibit regrowth

Issues

I hold no objections to the proposed above works; not for the implicated reasons of indirect damage but, because the shrubs are not worthy of further protection.

Recommendation

No Objection
