Site

The trees T1 high pollard Lime & T2 high pollard Ash are situated in the rear gardens of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Lime tree-crown reduction to approximately 2m below previous pruning. Leave side branches unpruned for screening.

T2-Ash tree in garden of number 39 Fortismere Avenue crown reduction back to approximately 2m below previous pruning points

Issues

I hold no objections to the reasonable proposed pruning works.

The further pollarding of the Lime T1 will the tree in line with the existing tree line.

T2 is to reduce to previous. Please note permission from the owners of the tree at 39 will be required to carry out the proposed works.

Both species generally respond well to such reductions and management regimes.

Recommendation

No Objection
