Subject: Re: 5 Day Notice for tree works in a Conservation Area - Tile Kiln Lane

Hi all, I can confirm that the safe removal is complete and the tree has been taken down with minimal loss to surrounding trees.

Kind regards

Kevin White

Hi Tamsin,

Hope all is well.

I am aware of this tree as I looked at it with the contractor Kevin, who I have Cc into this email, last week.

If this is the dead Ash tree, then please take this email as confirmation to fell the dead Ash tree under a five day notice.

As part of the works and the methodology several smaller Sycamores around the dead Ash need to be removed. We will require confirmation of this.

Regards,

Daniel Monk

Subject: 5 Day Notice for tree works in a Conservation Area - Tile Kiln Lane

Importance: High

Hi Daniel,

Apologies for coming to you directly in relation to this, I could not find a reporting mechanism on the Borough's website.

Please find below a 5 day notice works to dead / dangerous trees in a conservation area. This is not a TfL tree and we served a notice under s.154 of the Highways Act on the owner, however they have not actioned the works. As such, we are now taking steps to remove the tree and manage the risk to the highway.

5 Day notice for tree works in a Conversation Area

Town and Country Planning (Tree Preservation) (England) Regulations 2012

Location: Land at 2 Tile Kiln Studios (Between Tile Kiln Lane and Archway Road) Haringey
Works: T1 Ash. Dead and overhanging the footway and carriageway at Archway Road. Fell dead tree to waist height (1m) to mitigate risk of failure.

I would be grateful if you could kindly acknowledge receipt of this notice and advise when the LPA have reviewed its proposals.

Many thanks

Tamsin
