Site

The Leylandii tree, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Leylandii - Crown reduce the height by 5.0m

Crown reduce the spread to balance and shape retaining green foliage (approx. 1.8m)

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the proposed pruning works.

The species generally responds well to such reduction works and management regimes.

Recommendation

No Objection
