Site

The various trees, as listed above, marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Ash - crown reduction by 2 metres in height and 1 metre in lateral growth, leaving the tree a standing height of 6 metres

T2 - Elder - crown reduction by 1.5 metre in height, lateral growth shape by 1 metre, leaving the tree standing height 5 metres

T3 - Elder - crown reduction by 1.5 metre in height, lateral growth shape by 1 metre, leaving tree standing height 4 metres

Issues

I hold no objections to the proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
