Site

The Eucalyptus tree, as marked on the plan, and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Eucalyptus - Cut entire tree down to a 5.0m-6.0m trunk

The tree is an inappropriate species for the location. The tree has an excessive lean over the neighbours garden and is poorly maintained

Issues

I hold no objection to the proposed works to reduce the trunk to 5- 6m.

The Eucalyptus tree is a past reduction with poor form and is not worthy of further protection.

The species generally responds well to such reduction works and management regimes.

Recommendation

No Objection
