Tree Inspector	DM	Date: 21 st April 2026

Site

The Horse Chestnut trees, as marked on the plan, and seen in the photographs, are situated in the grounds of the property. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Bruce Castle Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

2 x Large Chestnut - Crown reduce the height and spread back to the previous reduction points leaving soft furnishing growth where possible (approx. 3.5m height and 2.5m spread)

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the reasonable repeat proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
