

Historical Mapping & Photography included:

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey archives in Southampton, England, in 1864. The 1:2,500 scale was adopted for mapping urban areas and by 1866 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.
