The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey, London, and the National Library of Scotland, Edinburgh. In 1854 the 1:2,500 scale was adopted for mapping urban areas; these maps were used to update the 1:10,560 maps. The published date given therefore is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys in outlying areas. In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overlaid with the National Grid. In 1970, the first edition of the maps was revised, and the National Grid was removed. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.

The historical maps shown were reproduced from maps predominantly held at the time of the original Envirocheck Scotland project in 1879. In 1954 the 1:2,500 scale was adopted for mapping urban areas; these maps were used to update the 1:10,560 maps. The published date given therefore is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent inaccuracies in outlying areas. In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overlaid with the National Grid. In 1970, the first edition of the maps was revised to include the National Grid. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey archive. The maps shown are the 1:10,560 scale maps published in 1896. The 1:10,560 scale was adopted for mapping urban areas; these maps were often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas. In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overlaid with the National Grid. In 1970, the first edition of the National Grid was published. The maps shown are the first revision crosses continued until recently, with new editions appearing every 10 years or so for urban areas.
