Site

The tree is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Hornsey Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 in rear garden - reduce in height and width by approx. 2m in height and 2m from the lateral spread.

Justification: To tidy and contain and shape, routine maintenance

Issues

I hold no objections to the reasonable proposed pruning works to the Prunus spp. tree.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reduction works.

Recommendation

No Objection
