To Whom It May Concern,

Planning Portal Reference: PP-14907666

Matter: Second Floor Flat D, 25 Crescent Road, London N8 8AL - Replacement Windows

This application seeks permission to replace 5 existing double-glazed aluminium casement windows on the front, side and rear of the property, with double-glazed white PVC-U casement windows of the same style, size and configuration. The existing windows no longer fully close, resulting in a significant loss of heat during the winter and significant noise entering into the property. The proposed replacement windows would result in no change to the size or arrangement of any window openings and no alteration to the external appearance of the building.

The aim is to rectify the current windows' functional issues to improve the property's energy efficiency and reduce noise from the road outside. The renovation intends to provide a sustainable and secure solution that aligns with the architectural integrity of the building and meets local council standards.

We are committed to sourcing high-quality materials from FENSA registered supplier Anglian Home Improvements, ensuring the renovation adheres to the highest standards of quality and architectural harmony.

Should you have any questions, please do not hesitate to contact us. We thank you for your time and consideration on our planning application.

Yours faithfully,

Marie France Helene Usher
