MISS COOK

17 IMPERIAL ROAD

WOODGREEN

PO22 8DE

①

I strongly disagree the
description for further extraction on
#19 Imperial Road for the Reasons
Blocking out more light & privacy
but more so noise levels.

from the previous negotiations
which they told us it would
be only 3 months it actually
went on for 2 years through
that time daily where heavy
machinery was being used
drilling & banging all day
almost every day as a result
I have been left with damages P.T.O

⑧

2400/2502/2600

2400/2502/2600

to my flat. Which are cracks
along my Bathroom ceiling
crumbling Brick work.

As they messed around with
the foundation of the house
we now have serious structural
problems. my flat has become
very fragile these houses that
are built on top of the new
river are over 100 years old
and are too old for on going
work

I become very unable to
cope with the stress from
these renovations I had a

PTO

mental break down with
depression, asthma, anxiety panic
attacks and continuous ringing
in my ears (tinnitus)

I plead with you along
with my 3 neighbours to put
a stop to further unnecessary
work which will only result in
further damages.

Yours Sincerely
