

Dear Sir,

- 1 MAY 2026

Ref:- HSY/2026/0648

Loft conversion with 2 Nos front
rooflights and rear roof terrace

19 Imperial Road, Wood Green

I would like to object to the application
of a loft conversion at 19 Imperial Road.

My objection is as follows:-

- (i) Nos 17 & 21 have already suffered at least
2 years of building work already on
No 19 Imperial Road, Wood Green.
- (ii) Two sets of builders were involved
and the noise, dust, (brickwork being
scrapped) and scaffolding wearing brick-work
down, drilling, and hammering was very
nervve-racking.
- (iii) The houses are early Victorian and cannot
stand up to more wear and tear. This impinges

on neighbours at No. 21. too.

(iv). I do not think my upper roof will support 2 steel beams on an old Victorian house which has already been disturbed by previous building alterations.

(v). This has been a quiet residential street and to have a large extension plus a roof terrace will result in more disturbance and more people noise - and far less privacy with usage.

Yours faithfully,

17, Imperial Road, Bounds Green
