Tree Inspector	DM	Date: 6 th May 2026

Site

The mature Poplar tree species, as highlighted within the condition report, seen in the photographs, and marked roughly on the map, is situated in the rear garden of the property. It is publicly visible from the surrounding area Priory Road and Queens Wood.

A site visit was deemed necessary to determine the appropriateness of the proposed works (16/03/2026 at approximately 11:04am).

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Grey Poplar tree (TPO 0629) has large cavity above 6m; there is a danger to buildings and life. Monolith at a height of approximately 7m (proposal description amended 06.05.2026)

Issues

I hold no objections to the making safe of the Poplar tree.

A site visit confirmed what is already highlighted in the condition survey and from the aerial inspection.

Poplars are a short lived, fast growing, weak wood species.

The proposed monolith will provide conservation habitat.

Recommendation

No Objection
