Site

The Oak trees, as listed above and marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1) Oak:

- Reduce height by up to 1.5 metres; reduce any lateral regrowth over gardens by up to 2.5 metres; all cuts within previous, most recent reduction points; retain natural and even flowing canopy outline; remove any dead and defective branchwood.

T2) Oak:

- Reduce lateral spread by up to 2 metres to bring into uniform shape with T1; all cuts within previous, most recent reduction points; Remove any dead and defective branchwood

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such management regimes.

Recommendation

No Objection
