Site

The mature Bay and Yew trees T1 & T2 are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Bay tree- Reduce height by approximately 2 metres, prune in all sides by bump to 1m and create gap between Bay and Yew.

T2- Yew tree- Reduce height by approximately 1 metre, prune in all sides including neighbours side by up to 1m

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

Both species generally respond well to such management regimes.

Recommendation

No Objection
