

# PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,  
Alexandra House, Station  
Road N22 7TY

|                    |                                                                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application number | HGY/2026/0734                                                                                                                                                                           |
| Application type   | Conservation Area Notification                                                                                                                                                          |
| Site Address:      | 8 Wolseley Road, Hornsey, London, N8 8RP                                                                                                                                                |
| Proposal           | Crown reduction of Olive Tree which is overgrown, top heavy and unstable - specifically the removal of approximately 2-3 metres of branch in order to right-size and stabilise the tree |

|                  |              |                                 |
|------------------|--------------|---------------------------------|
| RECOMMENDATION:  | No Objection |                                 |
| Application date | 20/04/2026   |                                 |
| Tree Inspector   | DM           | Date: 12 <sup>th</sup> May 2026 |

## **Site**

The young Oliver tree, as seen in the photograph, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

Crown reduction of Olive Tree which is overgrown, top heavy and unstable - specifically the removal of approximately 2-3 metres of branch in order to right-size and stabilise the tree

## **Issues**

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

## **Recommendation**

**No Objection**
