EA ref: PA-0004215/01
LPA ref: HGY/2026/1294
22 May 2026

Approval of Schedule 2 Requirement 11 (Contaminated Land and Groundwater) relating to Stage 5h (as approved under HGY/2026/0364), of The National Grid (North London Reinforcement Project) Order 2014 attached to development consent order HGY/2014/3601.

Tottenham Substation, Watermead Way, London N17 0SG

Dear Nathan,

Thank you for consulting us on the above application on 12 May. As part of the consultation, we have reviewed the submitted documents in line with our remit including but not limited to the following:

- North London Reinforcement Project Requirement 11 – Contaminated Land and Groundwater Contaminated Land and Groundwater Technical Covering Report: London Borough of Haringey (National Grid, March 2026).
- Technical Note, Pylon ZBC 43 Contaminated land risk assessment (Arthian, 16/03/2026)

Environment Agency Position

Based on a review of the submitted information **we are able to recommend the discharge of requirement 11**

The site, referred to as “Site 43” comprises the footprint of the existing pylon and a part of the Tottenham former bus depot.

The bus depot area has been subject to site investigation, assessment and ongoing remediation by National Grid as part of Requirement 11 of the DCO. The Environment Agency has been consulted on these works and considers them to be acceptable.

While the pylon location falls outside the boundary of these works, considering that these works are extremely limited and don't include groundworks, Environment

Agency would agree that it would be disproportionate to require intrusive investigations.

Final comments

Thank you for contacting us regarding the above application. Our comments are based on our available records and the information submitted to us. Please quote our reference number in any future correspondence. Please provide us with a copy of the decision notice for our records. This would be greatly appreciated.

Should you have any queries regarding this response, please contact me at the email address below.

Yours sincerely,
