Site

The Apple and Fig trees, as listed above and marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Apple Tree crown reduction. Fig Tree Crown reduction.

The apple and the fig tree would be reduced in height by 1.5 - 2 metres and by approximately by 1.5m in lateral spread. At the present time both trees stand at a height of 3 -3.5 metres in height

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions.

Recommendation

No Objection
